**ROOM ASSIGNMENTS:** New students with completed housing applications are assigned after current residents have been assigned. Students are assigned into their preference, provided space is available. Choices cannot be guaranteed. Room assignments are mailed prior to each quarter's opening. Fall assignments are made during the preceding spring.

**ROOMMATE:** Roommate requests must be mutual and will be honored (where space allows) only if both parties have completed applications on file by April 15th. *The Department of Residential Life adheres to the policy that it is the responsibility of any student contracting at double occupancy rate to retain a roommate at all times in order to avoid additional fees.*

**PRIVATE ROOMS:** Private rooms will be issued upon request, provided space is available.

**APARTMENTS:** Once the Residence Hall application has been submitted online or by mail with the appropriate fees, you may request a University Park/Park Place application from the Department of Residential Life. The University Park/Park Place application requires a \$50 application fee. Students are added to the waiting list according to the date the completed University Park/Park Place application is received.

---

## **LOUISIANA BOARD OF TRUSTEES POLICY:**

All unmarried, full-time, undergraduate students are required to reside on campus as long as space is available. Applications for exemption from the on-campus residency requirements may be obtained from the Office of Student Life. Residence hall accommodations are operated on a room and board plan: all undergraduate students living on-campus must pay for both services.

---

## **HOLIDAY AND QUARTER BREAK HOUSING:**

Louisiana Tech residence halls close between quarters and during some holidays. Special housing is available during these times for a nominal fee. Contact the Housing Office for more information. Apartments are operated on 9 and 12 month leases.

---

## **DAMAGES / LOSS OF PROPERTY:**

The university is not responsible for damage to or loss of personal property, failure or interruption of utilities, or injury to persons. Residents are encouraged to provide their own property insurance. Occupants of residence hall rooms are held liable for damage to university property within the room, building, and all other university property they use or have access to. The university reserves the right to charge all students equally for damages in a student's room or in common areas, if the individuals involved are not identified. Every attempt is made to identify the individuals involved before a group billing process is initiated.
